Dear Harold,

I just heard on the radio about the House Assassination Committee's revelation that a tape of the shots being fired exists & that it indicates more than one assassin. I had heard about it some time ago &, now that it has been made official, I wonder if it will at least push some of those who were not satisfied with the "old" evidence & were waiting for something "new" into action. I was also very happy to hear that a local FM station is going to carry the public hearings live, so I'll be able to listen at work. I was hoping to take some time off to come down & attend some of the hearings, but now it looks as though I'm going to have to take the time off instead to have my wisdom teeth pulled. I've been putting it off for over a year, but lately they've been giving me trouble so it looks as though I'm going to have to give in. Still, if you know when any witnesses of particular interest are scheduled to testify, let me know & maybe I can get away [redacted] somehow. Are you going to be testifying?

My trip was great but because I only had 2 weeks we really pushed it to get as much in as possible. We went out to Colorado via Missouri, Indiana, Kansas etc & came back via Utah, Arizona, N. Mex., Texas, Oklahoma etc. I was glad to be able to see as much as I did, but now I hope to go back to Colorado & just spend some time there. That has got to be the most beautiful state! I would

really like to move there. I got some really fantastic pictures which I'll show you if I can ever find the time to come down.

Well, I hate to cut this short but I'm due in a meeting any minute. If you hear anything RE: the Hearings let me know.

Best,
Karen
